SUMMARY

Driving successful project outcomes by bridging business requirements and technical execution through stakeholder management, requirement analysis, and seamless coordination between clients and development teams.

SKILLS

- **Project Management & Delivery:** Project lifecycle management, agile & scrum methodologies, sprint planning & task prioritization, timeline & resource management, risk identification & mitigation, cross-functional team coordination, Jira & ClickUp
- **Customer Success & Outcome Management:** Client onboarding & relationship management, client retention & growth support, escalation handling, customer retention, revenue-focused client engagement, KPI & outcome tracking
- **Business Analysis & Documentation:** Requirement gathering & analysis, SRS/BRD documentation, use cases & user stories, process mapping & workflow design, functional analysis
- **Data & Analytics:** Excel, SQL, Power BI, DAX, KPI reporting, data-driven decision-making

PROJECTS & EXPERIENCE

Project Manager – LogicGo Infotech LLP|Surat

Feb 2026 – May 2026

- Managed 4+ software projects simultaneously, ensuring timely delivery through effective planning, coordination, and progress tracking.
- Served as the primary point of contact for clients, leading onboarding sessions, requirement discussions, and daily stakeholder communication.
- Coordinated with cross-functional teams of 10+ members across Backend, Frontend, Design, and QA while translating business requirements into SRS and execution plans.
- Collaborated with team leads to prioritize tasks, allocate resources, and track project progress using Jira.
- Conducted daily stand-ups, identified risks and bottlenecks, and implemented proactive measures to improve delivery efficiency.
- Worked closely with clients to gather feedback, define enhancement requirements, and ensure successful project outcomes.

Internship: Data Analyst – Alert India

Mar 2025-May 2025

- Coordinated with external stakeholders and internal teams to gather reporting requirements and deliver insights.
- Designed and maintained Power BI dashboards tracking 10+ KPIs for program performance and engagement monitoring.
- Analyzed healthcare and campaign data to identify trends and improve program effectiveness.

PERSONAL PROJECT

Healthcare Analytics & Disease Monitoring System (BRD & KPI Design)

Jan 2025 - May 2025

- Created a BRD for a healthcare analytics system covering KPIs, dashboards, and user stories
- Defined reporting requirements to enable disease trend monitoring and data-driven decisions

Analytics & CRM Insights:

May 2024 - Present

- Built Power BI dashboards to analyze customer behavior, engagement, and retention trends. Tracked KPIs, churn signals, and performance metrics to gain CRM insights. **Projects included:** Ola Customer & Revenue, COVID-19 & Healthcare, Heart Disease Analysis, Live Weather Showcase

CERTIFICATIONS

- **Google Data Analytics Professional Certificate**
- **Google Advanced Data Analytics Certificate**
